

WORLD EXPO 2025 NEWS 「KIZUNA – 絆 – News letter」

“Kizuna” is the Japanese word for “bond.”

Issued November 20, 2024, Vol.30

The Forest of Tranquillity was conceived as one of the symbols of Expo 2025 Osaka, Kansai, Japan. Mr. FUJIMOTO Sou and I are the producers in charge of the project. This Expo will not only revolve around artifacts that symbolize technological development, but also aims to create ecosystems together with diverse forms of life. We brought trees from nearby forests that were scheduled for thinning, regenerating them into the Forest of Tranquillity, which continues to grow as we speak. As an initiative for co-creating our future together with various forms of life, we plan to hold discussion events at the Forest of Tranquillity in coordination with Expo Theme Weeks. We welcome ideas for events from other members, so feel free to reach out to us if you are interested. Naturally, we look forward to seeing you at the venue too!
